NORWAY AND VICINITY

OUR SNOW

(Apologies to K. L.)
The snow-fall began in the Autumn
And busily day by day
It has covered poor old Mother Earth
In the good old fashion.
November started the frolic game,
December joined with a vim,
Then good old January, get your old soul,
Sawed nothing but snow from him.
February's full hand followed suit,
Then gentle March played a trump,
And April's tears are not frozen, quite,
By May, we may "go to sleep."
Who would care to dig through the snow-drifts
The roses of the snow-bird?
Or crank up the frisky ploggan
Or ski, the fourth of July?
There are forty feet on the level,
And the snow is deep in the valleys.
While all the city and country,
There rises a small wall.
Oh, go with to "tune in" our Lizzies,
Hear the motor's merry hum,
Over the days of diversions outings,
And the snow-bird's song.
We have heard the lovely snowflakes,
We've shivered them by the ton,
We know all their little secrets,
We treasure 'em 'tween every one.
Enough is enough, dear weather man,
Enough we had long ago,
We give you the snow-bird's song,
And the skelter, sweet and low!

The back room at Stone's Pharmacy received a generous supply of water, but nothing serious occurred there. Fortunately the Pharmacy remained open later than usual and the discovery was made in season to avert considerable damage.

Norway Organizing For Baseball

An independent team for Norway was declared at a meeting of the baseball interests Friday evening. According to the plans at least \$2,000 must be subscribed before the team will become a fact. The finance committee elected at a previous meeting was given authority to complete a preliminary canvass along the street for the purpose of raising the needed funds. The business men, Frank E. Deoster, Geo. F. Hill and Albion L. Buck are the committee. Little trouble is expected in raising the sum.

Frank E. Deoster and L. M. Carroll, who were present at the meeting, reported the Maine League idea expired, reported the doings at the general conference, also the affairs at a gathering of delegates from Dixfield, Livermore Falls, Farmington and Norway later in the evening. In the later meeting the four teams favorable to independent ball expressed a willingness to arrange a schedule of games among the clubs represented, but hooked up in a manner so one or all might take on other outfits as the season advanced. There were no objections to clubs in the group breaking into faster company if so desired.

This idea, was acceptable to the fans as it was pointed out the four teams will be in about the same class as their pay roll according to statements will run from \$200 to \$400 weekly. As it looks now, there will be no big money players in this combination.

In summing up expenses, the speakers believed \$700 a week should cover all expenses, at least until the first of August when it might be good business to strengthen and tackle Augusta, Lewiston, Portland or other strong clubs. This plan would depend wholly on good patronage and on the sporting blood in this section.

Mr. Carroll and others familiar with handling teams, stated three games a week would be a desirable schedule. The venture self supporting. Home games on Thursday and Saturday would be drawn if possible, but they thought it doubtful if every Saturday could be clinched for Norway.

The board of directors was elected to handle all business connected with the team, the directors are Percy H. Nevers, L. M. Carroll and H. Walter Brown. Their duties will start when the \$2,000 nest egg is raised and they or their alternates will attend a conference at Lewiston Friday evening to formulate a schedule.

"Percy" Nevers reported having letters from "Billy" White, who has been playing in Florida. This player has been interested in the situation. Mr. Nevers had been in touch with other players' managers familiar with small town baseball and might take hold of the team. Apparently all players are not after big money, so there is a chance for towns having good sport at a reasonable output. It was hinted at the meeting this season would not start until the last of June and no great change might be expected until the last of July.

Among the speakers at the meeting were L. M. Carroll, F. E. Deoster, P. H. Nevers, George F. Hill, E. N. Swett and Albion L. Buck. Others inquired or offered helpful suggestions.

A period, conspicuous by its absence in last week's Advertiser made Nate Noble's 1910 Buick Model 17 a genuine luxury. The type said the car's expense had been \$500, since 1911. Instead of skidding it should have said \$500 which according to Mr. Noble is the total outlay, not mentioning tires. This old time machine is some stepper and 's in good running condition.

The Boy Raised the Price

DANGERS OF A COLD

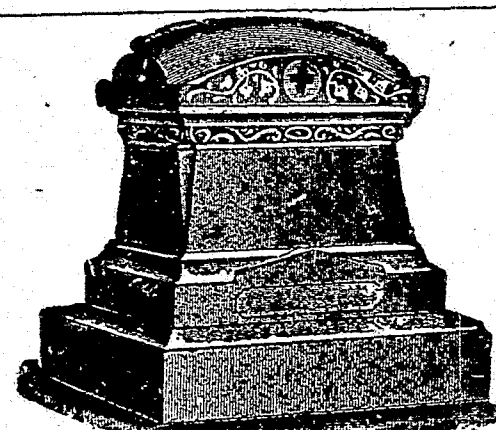

Norway People Will Do Well to Heed Them

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Follow this Norway resident's example:

W. O. Needham, retired farmer, 230 Main St., says: "At different times when I have taken cold my kidneys were affected. I began using Doan's Kidney Pills when I felt my kidneys needed a tonic and Doan's always strengthened my kidneys and cleared my system of the excessive uric acid. I always feel better in a short time after using this remedy and know that Doan's are what give me relief." (Statement given July 24, 1908.)

On September 3, 1920, Mr. Needham said: "I haven't changed my good opinion of Doan's Kidney Pills since recommending them years ago. Doan's benefited me greatly and I haven't lost an opportunity of recommending them since."

Mrs. Levi Bartlett passed away suddenly Sunday evening Mar. 25, at about 9 o'clock at her home on Chapman Street.

She complained of being ill and her husband said it would be well for her to go to room, but she was gone before he ceased speaking.

Her maiden name was Mary R. Whitman and she was born on Grover Hill, Bethel. Besides her husband, who is a veteran of the Civil War, she leaves three daughters, Mrs. Grace Tyler, Mrs. Mand Rice, Erva Green, and five grandchildren. A son, Earl Bartlett passed away several years ago. Funeral services were held at the Methodist Church of which she was a member, attended by the pastor, the Rev. C. B. Oliver at 2 o'clock Wednesday afternoon.

Mrs. Bartlett was a member of Bethel Grange and was lecturer for several years a member of the Relief Corp, and all societies connected with the church.

Frank Chandler is quite well now and is enjoying the approach of spring.

Mrs. J. C. Billings is much improved.

ARE YOU

READY

On account of the great quantity of snow that has fallen this winter there will undoubtedly be slush this coming Spring that will be ankle deep.

ARE YOU READY

There is a very small quantity of rubber footwear in the city stores, some sizes in rubber boots have already been closed out; getting more is a good deal like the COAL question. However, we suggest that you buy now while the stock that we have is very good. Quality is excellent, but our supply is getting smaller and smaller every day—be prepared is a good slogan.

ARTISTS

MISS LOTTICE HOWELL, lyric soprano</

Why tolerate cracking plaster?

BY UPSONIZING, you can have walls and ceilings of enduring charm.

Nearly every home—probably your own—has one or more rooms that are a source of embarrassment because of their appearance.

Yet you can easily transform such a room—simply by having your carpenter apply Upson Board right over the old plaster.

Upson Board is the nearest-perfect wall and ceiling material for every kind of building, new or old. It has the enviable record of less than one complaint to every 5,000,000 feet sold and used.

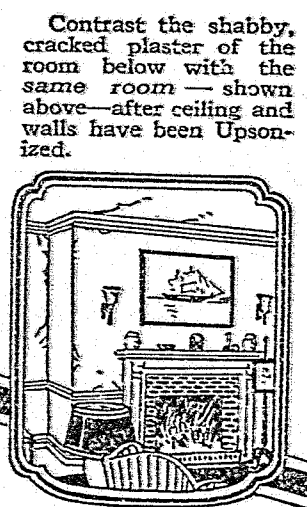

Upson Board is *different*! It is neither brittle nor absorbent like some boards—thus it reduces waste in handling and saves \$5 to \$15 per room in painting.

Applied with Upson Fasteners, Upson Board is the only board held securely in place from the back. Disfiguring nail-holes, the big objection to wall board, are eliminated.

Although fittingly used in the finest of homes as well as the modest cottage, Upson Board is *not* expensive.

Call or phone for samples, prices and complete information.

WOMAN'S HEALTH RESTORED

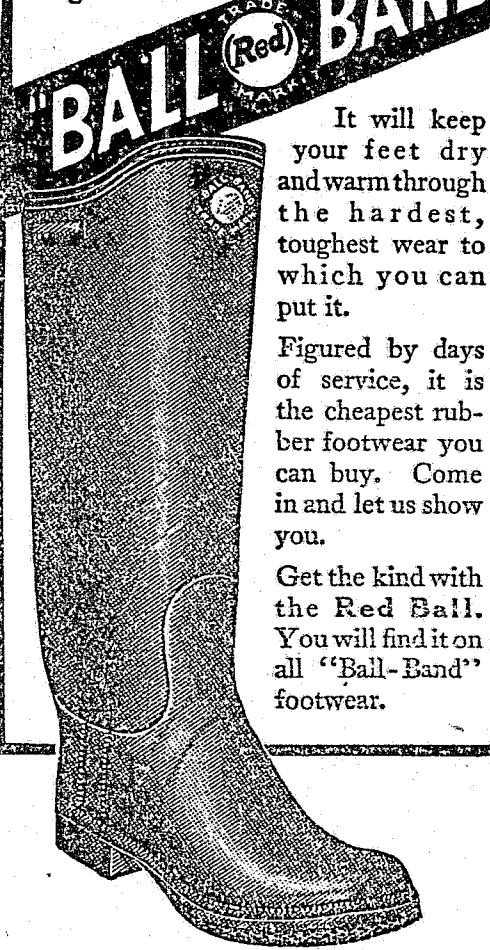

She Claims Lydia E. Pinkham's Vegetable Compound Did It After Everything Else Failed

Milwaukee, Wisconsin.—"I feel that I ought to let you know about my case. I was ailing and could hardly do my housework and washing I was so run-down, just from having one child. I took a lot of medicines and had doctors. Then I gave them all up and took Lydia E. Pinkham's Vegetable Compound and I feel wonderfully good now. I do everything that comes along, and we all take your medicine as a tonic when we don't feel just so. I am thankful for what the Vegetable Compound has done for my health and for my family."—Mrs. MARY SAEBECK, 944 28th Street, Milwaukee, Wisconsin.

Letters like these testify to the value of the Vegetable Compound. These women speak from the fullness of their hearts. They describe as correctly as they can their condition: First, those symptoms that affected them most conspicuously; and later the disappearance of those symptoms. They are sincere expressions of gratitude. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been so praised by women.

Boy Scouts' Century Run

Scout executive Harold Perham of West Paris is completing the details for a 100 mile relay race in which boy scout troops will carry a message over Oxford County in record time. The classic will be run on Saturday, April 28, between sunrise (5:01 A. M.) and sunset (6:55 P. M.). No postponement on account of weather or road conditions.

This is the plan: Each troop master on the course will post a runner and substitute at stations in his town one mile apart. The message will start from Rumford Falls and pass along in one mile laps over highways embracing the following towns in one big loop as follows, Rumford, Greenwood Center, Rumford Point, Hanover, Nevry, Bethel, Locke's Mills, Bryant's Pond, West Paris, Norway, Oxford, South Paris, Buckfield, Canton, Mexico, Rumford (finish line). Possibly Andover, West Bethel and West Sumner may be included.

Beginning at Rumford the boys in each troop over the course will measure mile laps by tape and locate the stations at an early date. These spots will be numbered and the local scoutmaster will assign runners identified by the same mark. On the day of the event, the contestants will take assigned positions, receive, sign the name to the document and hustle the message along to the next station. Ev-

ery boy in the race will also wear a placard, reading "Boy Scout Relay 100 miles. Boost Oxford County." The entire route will be covered by telephone and any point can be reached instantly. Each relay troop team will have a captain, and runners with substitutes according to the number of stations in town. Large troops will assist the little ones by taking over some of their territory when necessary. Executive Perham and judges with stop watches to Perham and message, the troop making the best average (road handicaps considered) will receive a suitable prize.

In the plan outlined by Executive Perham, the substitute has an important mission. He must run with the "regular" man and in case of a sprained ankle, weakness or other trouble, take the message and "keep it going." The 100 mile circuit must be made if possible in approximately 13 hours, or about one mile in 7 3/4 minutes.

Printed information is to be sent each troop, for the boys are wild over the plan and will put the test over with a vim.

Bryant's Pond Scouts On Hike

A snappy morning and a snappy crowd of boys always have a mighty good time off on the hike. Troop No. 1, Bryant's Pond, held their vacation hike Monday, the 26th. The destination was a secluded spot in the woods on the Oxford County Scout Camp site near Locke's Mills.

The day turned out perfect. Dinner preparations and results "turned out" the same. After dinner came that well known game of Winter Volley Ball for Plumb Center. The first victims of the following Dure Hunt was Exec. Perham, who received his death wound at the hands of Principal Swanton of Bryant's Pond high school.

Scoutcraft tests in fire building and second class cooking were successfully passed by Jay Willard, Otis Dudley and Linwood Ring. Perley Dudley passed his first class cooking hike. Executive Perham, Principal Swanton, Executive Perham, James Bullis, Perley Dudley, Frank Jordan, Otis Dudley, Joseph Farnum, Linwood Ring and Jay Willard formed the hiking group.

Norway Scouts On Hike

Do you remember that wild morning (the 26th) when several of the never-fail water pipes froze, the wash dish stuck to the sink, and even the 1923 calendar squeaked in protest? That's the morning Troop No. 1, Norway, went on their hike. The route carried them through South Paris, Pine Woods, Hungry Hollow, Far-

is Hill and back to home. It was the best day of the year for hiking. The 15 mile tramp hardly raised a drop of sweat on the brow of any scout. Dinner was the event of events. Nothing can beat a sheltered "run" in a second growth hardwood grove for the ideal spot for outdoor cooking and real comfort.

Under such conditions, the Norway scouts "kissed the cook." Scoutcraft tests in fire building, cooking, scouts' pace and tracking were successfully passed by Scouts Joe Labossiere, Paul Holden, Edmund McKay, Leiland Taylor, Horace Brown, Herman Judkins.

The hikers were Joe Labossiere, Paul Holden, Edmund McKay, Leiland Taylor, Horace Brown, Herman Judkins, Henry Favor, Horace Curtis, Philip Greenleaf, a candidate, one dog, and Executive Perham.

Oxford Scouts On Hike

Troop No. 1 held a great initiation service for their six Tenderfoot Scouts the night preceding the hike of the next day. Singing, speech making, chalk-rolling, ice balancing, horseback riding, and Devil's Den added the "good spirits" for every Tenderfoot was on deck for the hike down West Poland way Friday morning, the 30th.

The weather was fine and every scout out for business. Scoutcraft tests in fire building, cooking, S. C., tracking, scout's pace, first class cooking, first aid, judging distance, height, etc., were passed by Scouts Gordon Hayes, Arthur Bonney, Dana Hamlen, William Smith, Edmund Daniels, Gerald Davis, Hollis Dunn, Geo. Fletcher and George Patterson.

The return trip home was a happy one. Every scout passed one or more official tests. George Patterson, George Fletcher and Hollis Dunn assisted Executive Perham in charge of different branches of the work.

On the return trip every Tenderfoot received his last degree in the initiation. On reaching Plum Center, they lined up, doubled up, looked East and faced West, then listened attentively to a snappy radio concert at the West End Hotel.

SCHOOL SLAVERY

Don C. Seitz, manager of the New York Evening World, in the New Student of March 10th, has this to say regarding school training: "There have been many emancipations but the school children are still in thrall. From five to sixteen their young lives are cramped in classes, too often under nervous, overstrung teachers, on hard wooden seats that produce a perpetual wriggle, while their minds are kept in confusion through the effort that is being made to 'educate' them. This is partly due to a parental desire to have them out of the way and partly to the system of instruction that has gradually enmeshed the graded school throughout the nation. Many children dread school and many more drift through classes without understanding what it is all about. Instruction is thrown at them in desiccated bits. In the scramble the zealous may pick up some fragments, the well-meaning a few more, the mass none at all. The proficiency attained by the average pupil is on the whole a poor return for the long and eventful years of his life. He or she endures at the budding, joyous period of life, when out of doors makes its loudest appeal and when restraint is most cruel. Sentence a grown-up to ten or twelve years of confinement under 'rules,' discipline and penitence and you would breed a swift revolution. No one seems to worry about the imprisonment of the child.

Moreover, the building of schoolhouses and the expansion of educational costs go on without end. Proud of our civilization as we wish to do our utmost in education, we forget that fads and fancies are responsible for most of the outlay and that real fundamental learning is too often so taught as to be unabsorbed. Beautiful as art and music are there is no occupation for but one musician and one artist to each 100,000 of population. Domestic science and needle work might be much better acquired in the home circle than at public expense, taught as they too often are by immature girls with no genius for either flavors or style.

Yet the remedy for crowded schools and long days of attendance is easily at hand. Teach but one thing, or a group of related things, at a time. Start the child with the alphabet. Teach it reading and nothing else, until it can read understandingly and with interest, not forgetting that fads and fancies are responsible for most of the outlay and that real fundamental learning is too often so taught as to be unabsorbed. Beautiful as art and music are there is no occupation for but one musician and one artist to each 100,000 of population. Domestic science and needle work might be much better acquired in the home circle than at public expense, taught as they too often are by immature girls with no genius for either flavors or style.

Reserve the high school and the college for the exceptional. Don't run the schools as a combination of jail and hothouse. Teach that education is a thing needed for the full enjoyment of life—not a necessity for earning a living, which it is not. But given as it should be, so that knowledge becomes a refreshment and not a burden, we will truly approach the golden age."

RESOLUTIONS OF RESPECT

Whereas: That Ernest Mass has been invaded our ranks and taken from our midst to serve in the great Grange above, one of our most loved and valued members, Sister Carrie A. Roberts, a member while young, who always labored for the good of the order and its membership, always helping to lend a helping hand wherever needed, and ever stood for the cause of right.

Therefore be it resolved: That in the death of Sister Roberts Oxford Pomona Grange has lost a helpful and valued member, and its membership a true friend and worthy sister, one that we will greatly miss, but one whom we shall always hold in loving remembrance.

Be it further resolved: That we extend our heartfelt sympathy to the son and family whom she so dearly loved and with whom she spent her last days. And to all other relatives and the large circle of friends who will greatly miss the hearty greeting and kind word which was always accorded them.

Resolved: That a copy of these resolutions be sent to the bereaved family and also a copy spread upon our records.

People are interested in the home news and that is the kind of news the Norway (Oxford County) Me., Advertiser wants each week to give its readers.

There are readers in the home town and there are readers who visit our towns annually and there are others who live out of town who are exceedingly anxious to read the doings of their friends and acquaintances back home.

Send us the news, give us account of the gatherings of a public nature and otherwise, the accounts of the family parties and guests in the home. There are many local happenings that would be of interest. Hand to the regular correspondent of your town or send direct to the Advertiser office with the name of the sender.

We want all the home news and with your assistance we shall be able to make the Advertiser the home paper that it aims to be.

LITTLE HALF WORN SHOES

God, bless the little feet that never go astray,
For the little shoes are empty, in my closet
Laid away;
Sometimes I take one in my hand, forgetting
Till I see
It is a little half worn shoe, not large enough
For me;
And at once I feel a sense of bitter loss and
Pain.
As sharp as when a year ago it cut my heart
In twain.
O, little feet that wearied out, I wait for them
No more,
For I am drifting on the tide, but they have
Reached the shore,
And while the blinding tear drops wet these
Little shoes so old,
I try, to think my darling's feet are treading
Streets of gold.
And I lay them down again, but always turn
To say,
"God bless the little feet that now so surely
Cannot stray."

Ald while I thus am standing, I almost seem
To see
The little form beside me just as it used to be,
Dear little face uplifted, with sweet and tender
Gaze.
Ah, me, I might have known that look was
Born of Paradise.
I reach my arms out fondly, but they grasp
The empty air.
There is nothing of my darling but the shoes
She used to wear.
O, the bitterness of parting cannot be done
Away,
Till I meet my darling walking where her feet
Can never stray;
When I no more am drifted upon the surging
Tide,
But with her safely landed upon the river's
Side,
Be patient, heart, while waiting to see the shining
Way.
For the little feet in the golden street can never
Go astray.

ODE TO FROMA WINDO

Long lines of lighted windows
Along the tracks in the distance,
And the city stretches far
Toward the sky line in the Northland
Where a blue mist hangs heavy in the evening sky,
And know the wind is blowing,
And the snow drifts growing deeper,
And the pine trees on the mountains
Are moaning in the moonlight.
And mother sets the lamp all lighted
In the window near the road,
In some travelling friend or stranger
Seeing, what he cherishes and treasured,
And father brings the pall of water
And the boys come stamping in
Arms filled with dryest birch wood,
King Gold stalks the world outside,
But inside warmth and comfort linger—
—It was a dream I had.
Of the old loved "stamping ground,"
All that I am seeing now
Are towers and steeples in the sky,
All people hurrying homeward,
With no thought save of self,
And no wish for Norway land,
Where Froma's friends are living,
The happy home of heart's desire.
—ANN OTHER WINDO.

ELECTRA

What is the soul of man? I ween
It is but a breath of the Great Unseen
With the brain a battery that serves
To feed the wires we call the nerves
Taking its force from the ambler brain
To give us motion, thought and pain:
We are but brothers of the sky
Born by the power of the ether
Sent from the field across the Arc
That breeds the stirring vital spark:
Electra, mother of the stars,
Born in the boundless realms of space!

Lee's Grant

Lee's Grant, a tract of some 6000 acres, became the northeastern part of Norway when the town was incorporated in 1797. It was granted to Arthur Lee of Virginia by the Legislature of Massachusetts in 1780 for services rendered the colony as its agent in England in 1775. In 1785 an act was passed confirming Lee's title to the tract, after it had been surveyed and a plan of it drawn and filed in Boston. He died without issue, Dec. 12, 1792. By his will he devised "Lee's Grant," in the "Province of Maine," to his nephew Francis Lightfoot Lee, the son of his brother, Richard Henry Lee, a signer of the Declaration of Independence. This son was named for his uncle Francis Lightfoot Lee, who was also a signer of the Declaration of Independence.

The Francis Lightfoot Lee who became the second owner of our Lee's Grant, conveyed to Jacob Tubbs a Revolutionary soldier and the ancestor of the Tubbses of Norway, 200 acres of the Grant May 7, 1810 (Albert Richardson Place). This conveyance is recorded in the Oxford Registry of Deeds at South Paris.

On the 25th of Feb. 1812, Francis Lightfoot Lee conveyed the balance of the grant to Ludwell Lee, and three days after, Ludwell Lee sold to Edward Little, of Newburyport, Mass., who had it allotted by Joshua Smith, developed, and settled. The conveyances named are recorded in our registry. There doesn't seem to be any chance for controversy over the foregoing statements, which appear of record and are historical, but writers who take no pains to verify statements and dates are

continually inviting controversy over well established facts.

It has been asserted that Gen. "Harry Lighthouse" Lee was the second owner of our Lee's Grant, and that there "is no record in Oxford County of the date of Lee's Grant." The author of the latter statement could have avoided that egregious blunder by taking the little trouble to call up our Registry of Deeds. Now it is admitted that Arthur Lee devised our Lee's Grant to his nephew. The records say his name was Francis Lightfoot Lee but it has been stated that it was to "Lighthouse Harry" Lee, the father of Gen. Robert E. Lee. That this arose from a mistake in copying the name of the legatee seems very plain for "Lighthouse Harry" Lee was not the nephew of Arthur Lee, but the son of Henry Lee who was a cousin of Arthur Lee's. This is so given by Gen. Fitzburg Lee and A. L. Lee and his campaigns and the Encyclopedias. What better authority could one have than Gen. "Lighthouse Harry" Lee never had anything to do with our Lee's Grant—C. F. Whitman

LEARNING THE BIRDS

The spring is a season of special delight to all who love nature, since in that time of romance birds are singing at the tops of their voices and filling the land with cheery melody.

The recognition of favorite songsters and learning of new ones is one of the pleasures of springtime. Knowledge of this kind is a permanent possession. The song of a particular species of bird is an individual thing, with a distinctive character. Once you learn it, you know it always, and would recognize it after many years, as you would the voice of a long absent friend.

The human race has been perfecting musical instruments for 5000 years. But it would have to be a very fine violin, held at a high price that could make a tone as beautiful as the little bird that sings its liquid note in the tree tops which suggests that the simple pleasures within everyone's reach are often the sweetest.

IMPORTANT ARBOR DAY

It is more probable that too many people fail properly to appreciate the value and importance of a whole hearted observance of the annual Arbor Day celebration than to give official sanction in every state in the Union.

A general development of tree culture, particularly, has distinguished the work of forward-looking individuals and social groups during the past 50 years, but only during the past decade has this work assumed distinctive and super-valuable practical importance.

As Bryant sang: "The groves were God's first temples." And we can well understand why they should have been so set apart as sacrosanct. The Greeks, the Romans, the ancient Britons, the original tribes of our own America, the dwellers in the rank jungle-forests of the still mysterious African continent all bowed before the majesty and power of the forest gods.

In this age, thanks to the progress of this wonderful movement in behalf of arboreal beauty and utility, we have seen the growth and multiplication of the city parks, the conservation of the nation's still vast forest preserves, and, not less important, the ever-increasing tree culture on private properties and along the public highways. This means an investment which will pay, dividends, both practical and ideal, through the endless years of the future. The nation's potential possibilities in this direction are superior to those of Europe and the older portions of the globe. Trees and shrubs, birds and boundless fields in which grow the grains and other vegetable products necessary to our physical health, make political ideals may attain to nobler lasting achievement.

No all should appreciate the importance of Arbor Day, and contribute individual service each year to the end that the great movement increasingly may be developed until from Maine to California, east, west, north and south, the ways of America may be made beautiful through intelligent, artistic and idealized forestation. The universal life animates trees and flowers, as it animates stars and seas and the lower orders, as it animates the crowning work of creative development, man. Trees and birds and flowers mean wider happiness and comfort for the human race. Arbor Day should be a great day throughout the land.

Observe the day by planting a tree.
